

# Give a donation as a gift

## Donation Certificate

Dear

This year, I wanted to give you something special for Christmas.

Something of value that will last beyond the holidays to make someone happy.

In your name, I gave a donation of  So you gave street children in South America a future.

You make Camilo's dream come true.

Camilo would like to work in a social occupation when he is grown up. However, his precarious environment in Peru does not offer any chance for such visions. With your donation you make possible a home and education for children like Camilo. There they receive a stable foundation for their lives and can come one step closer to their dreams.
